

**LABOR SHORTAGE THREATENS
 PRODUCTION**

The Fertilizer Industry Hard Hit by the War.

The supply of fertilizer for 1919 spring sown crops is threatened by shortage of labor in the fertilizer factories. This fact is of particularly serious import to the potato farmers of the country, for the great potato section is coming more and more to depend on fertilizer for the economical production of this crop. Thus it happens that the very factor which prevents factories running to full capacity also has effect in preventing farmers from using their own depleted farm labor supply to best advantage. Labor cannot be used to advantage on those fields which can give but half a crop. The fertilizer industry is normally a seasonal industry. About the first of February the factories are normally in full blast, producing fertilizer for use on spring crops. Then they "die down" again for a period of several months in late spring and early summer. This requires a large floating supply of labor, a supply which has largely been eaten up by demands of the shipyards and munition factories. Transferring the industry from a seasonal basis to a full 12 months' operating basis will certainly be economical of labor. The factories can then work at somewhat diminished daily capacity for more weeks in the year, and in this way get out the necessary tonnage. It can't be done at once, however, because factories do not have storage space enough to allow of this. Goods must be shipped out almost as fast as they are made—so that the greatest possible output by the restricted supply of labor may be assured.

If fertilizer users the country over will order early, through accustomed channels, and agree to take the goods from the car on arrival, much may be done to help insure a sufficient supply for next spring's business. Early ordering, however, means NOW.

AVOIDING SOFT CORN LOSSES

How Proper Management Enables Corn Crop to Get Ahead of the Frost.

An ear of hard corn may break, but it never bends. An ear of soft corn bends easily, but it never breaks. Sometimes water may even be wrung out from such corn.

A "soft corn year" is disastrous. The corn can't be stored, and can't be sold. It must be fed at once—with the result that hundreds of carloads of fat

Soft Corn (above) Full of Water, Hard Corn (below) All Corn.

hogs and fat steers must later on be marketed at the same time—to the disadvantage of all concerned.

But—why grow soft corn, when a crop of hard corn costs less per bushel?

Corn is planted when the soil is still cold, and just after the soil has been leached by the winter's rains. Available plant food in the soil is lacking. The reserves in the seed are soon exhausted, and then the plant "hangs fire"—makes no growth, remains small, spindling, and sickly—until such time as the weather warms up and soil plant food begins to become available. Available plant food, especially available phosphoric acid and ammonia, when applied in fertilizer have wonderful effect in saving time—in getting growth started early in the season. Later on in the summer poorly fertilized corn once again "hangs fire." It waits, and waits, and is eternally slow in ripening its seed. Too often such a crop is caught, still immature, by the first killing frosts of the season. A high available phosphoric acid fertilizer applied at time of planting is a tremendous aid in ripening up the corn quickly and surely.

**THE WORLD SHORTAGE
 OF LIVE STOCK**

A census of cattle in France reveals a decrease of 17 per cent in beef animals, 38 per cent in sheep and 40 per cent in hogs since December 31, 1913. Italy has suffered a loss of 41 per cent of horses, 18 per cent for mules, and 8 per cent for swine. No one can even guess what the decrease in Germany, Austria, and Russia has been, but it must be enormous. According to a reliable estimate the decrease of live stock in all Europe is equal to one-half the amount of live stock in America today. This estimate places the loss at 100,000,000 head.

**The KITCHEN
 CABINET**

In life's universal garden
 We have each to hoe our row,
 And to make life worth the living
 We must hoe, hoe, hoe.

LEFTOVER FISH.

HERE are many possibilities in small amounts of left-over fish. In these days of much canning, one may have a large variety from which to choose.

Shepherd's Pie.

Take two cupfuls of flaked fish, place in a baking dish. Cover with a sauce made with one tablespoonful of fat and one of flour, a half teaspoonful of salt and a few dashes of pepper, with a cupful of beef soup broth. Cover the sauce with a mashed potato, brush with cream and bake brown in the oven.

Fish Turbot.—Scald a cupful of cream. Rub together a tablespoonful of butter and two of flour; add the scalded cream and stir until it thickens. Add four tablespoonfuls of bread-crumbs, set over hot water and cook for five minutes. Take from the fire, add two cooked egg yolks, two cupfuls of fish, a tablespoonful of chopped parsley and salt and paprika to taste. Fill greased shells or soufflé dishes, brush over the top with beaten egg and brown in the oven.

Delmonico Halibut.—Beat the yolk of an egg into a half cupful of mashed potato. Melt two tablespoonfuls of butter, add a tablespoonful of corn-starch; stir until smooth and thick over the heat, after adding two cupfuls of rich milk; take from the fire, add another egg yolk, two cupfuls of cooked fish and the seasoning needed. Fill a greased baking dish with alternate layers of potato and fish. Cover the top with buttered crumbs, sprinkle with parmesan cheese and bake 20 minutes in a hot oven.

Codfish Balls.—Wash and pick over one cupful of codfish, shredding it into small pieces. Add fish to two cupfuls of diced potatoes, uncooked. Cook until the potatoes are tender, drain, mash and beat with a fork until light. Add a tablespoonful of butter, two tablespoonfuls of cream, one beaten egg, salt and paprika to taste. Make into balls, cover with egg and crumbs and fry in hot fat.

A little leftover salmon, mixed with coconut, cabbage and a chopped pickle to give an acid touch, and dressed with a plain boiled dressing, is a good salad combination.

Give to your friends a cordial welcome, instead of a variety of cakes and pastry.

The smile of the hostess is the cream of the feast.

JUST A FEW LEFTOVERS.

LACE a slice of tomato on nicely browned and buttered toast, sprinkle with grated cheese, salt, paprika, and with bits of butter. Place in the oven until the cheese is melted.

Cream of Turnip and Potato Soup.—Pour three cupfuls of scalded milk over one-fourth cupful of mashed potatoes and three-fourths of a cupful of mashed turnip. Strain through a fine sieve. Melt a tablespoonful of butter, stir in a tablespoonful of flour, and cook until bubbling hot and smooth after adding the hot milk mixture. Serve very hot with rye bread croutons. If the soup is too thick add a little more milk.

This year there was a bumper crop of tomatoes in most localities. After all the pickled, canned, and spiced tomatoes are put up, use the rest for:

Home-Made Tomato Paste.—Wash and scald the tomatoes without peeling them. Strain through a fine sieve to remove all seeds, then boil until thick. Put into glass jars and keep cool and dry. This paste is a most valuable addition to the fruit closet as it is fine for flavoring soups and sauces. It is condensed so that a little goes a long way in flavoring.

Scallop of Egg Plant.—Chop the remnants of friend egg plant rather coarse. Arrange in ramekins in layers with well-buttered cracker crumbs. Pour enough milk over so that it can just be seen and brown in a hot oven. This dish resembles oysters in taste.

Victoria Meat.—Melt three teaspoonfuls of butter, stir in three teaspoonfuls of flour, one-fourth of a teaspoonful of salt, a little paprika, bay leaf, and two slices of onion; add one cupful of stock and one-half cupful of tomato juice, stirring constantly. When slightly thickened add four mushrooms cut in pieces, one and a half cupfuls of meat cut in pieces and a cupful of cooked drained peas. With highly seasoned stock this is a most tasty dish. Serve in croustades or timbale cases.

Maxwell's Kitchen Cabinet

2 Cakes of Rose Bath

FREE
 With One Cake of
PALMOLIVE

**All Three Full Sized Cakes
 Yours for the Price of One**

This is a *three for one* acquaintance offer, made to introduce you to our new ROSE BATH—a pure white, daintily perfumed floating soap made especially for bath use.

Its quality makes it a luxury soap, its moderate price an economy. It is handy in shape and generous in size. It has a quick, ample, thoroughly cleansing lather.

We want to give you *two full sized cakes* of this new bath soap for a thorough trial. So we make this special offer:

Buy one cake of your favorite Palmolive any day next week at the regular price and present the coupon.

Your dealer will wrap up the two cakes of Rose Bath with this PALMOLIVE.

Three full sized cakes of luxury soap yours for the price of one.

The price of soap is steadily going up because of the enormous increase in the

cost of manufacture. Thus you simply can't afford to overlook this generous offer.

Just tear out the coupon, fill it out, sign it and take it to your regular dealer. Just say, "I want one cake of Palmolive at the regular price and the two cakes of Rose Bath as advertised."

And—do it without delay. Each dealer's supply is limited.

This coupon, if presented within thirty days, will be accepted as full payment for two cakes of Rose Bath Soap when the holder purchases a cake of Palmolive Soap at the regular price.
 Only one coupon may be presented by each family and the name and address of the party receiving soap must be signed in full to the following:
 I hereby certify that I have this day purchased one cake of Palmolive Soap from my dealer and received two cakes of Rose Bath Soap Free.
 NAME _____
 ADDRESS _____
 NOTICE TO DEALERS:—This coupon will be redeemed at 12 cents in cash when returned direct to The Palmolive Co., 39 South State St., Chicago, providing the coupon is signed in full with name and address of party receiving the soap. (We absolutely refuse to redeem coupons cut from newspapers purchased by dealers.)

LABOR SHORTAGE THREATENS
PRODUCTION

The Fertilizer Industry Hard Hit by
the War.

The supply of fertilizer for 1919
spring crops is threatened by
shortage of labor in the fertilizer fac-
tories. This fact is of particularly se-
rious import to the potato farmers of
the country, for the great potato sec-
tions are coming more and more to de-
pend on fertilizer for the economical
production of this crop. Thus it hap-
pens that the very factor which pre-
vents factories running to full capac-
ity also has effect in preventing farm-
ers from using their own depleted farm
labor supply to best advantage. Labor
cannot be used to advantage on those
fields which can give but half a crop.
The fertilizer industry is normally a
seasonal industry. About the first of
February the factories are normally
in full blast, producing fertilizer for
use on spring crops. Then they "die
down" again for a period of several
months in late spring and early sum-
mer. This requires a large floating
supply of labor, a supply which has
largely been eaten up by demands of
the shipyards and munition factories.
Transferring the industry from a
seasonal basis to a full 12 months' op-
erating basis will certainly be econom-
ical of labor. The factories can then
work at somewhat diminished daily
capacity for more weeks in the year,
and in this way get out the necessary
tonnage. It can't be done at once,
however, because factories do not have
storage space enough to allow of this.
Goods must be shipped out almost as
fast as they are made—so that the
greatest possible output by the re-
stricted supply of labor may be as-
sured.
If fertilizer users the country over
will order early, through accustomed
channels, and agree to take the goods
from the car on arrival, much may be
done to help insure a sufficient supply
for next spring's business. Early or-
dering, however, means NOW.

AVOIDING SOFT CORN LOSSES

How Proper Management Enables
Corn Crop to Get Ahead of
the Frost.

An ear of hard corn may break, but
it never bends. An ear of soft corn
bends easily, but it never breaks.
Sometimes water may even be wrung
out from such corn.
A "soft corn year" is disastrous.
The corn can't be stored, and can't be
sold. It must be fed at once—with the
result that hundreds of carloads of fat

Corn (below) All Corn.

hogs and fat steers must later on be
marketed at the same time—to the
disadvantage of all concerned.
But—why grow soft corn, when a
crop of hard corn costs less per
bushel?
Corn is planted when the soil is still
cold, and just after the soil has been
leached by the winter's rains. Avail-
able plant food in the soil is lacking.
The reserves in the seed are soon ex-
hausted, and then the plant "hangs
fire"—makes no growth, remains small,
spindling, and sickly—until such time
as the weather warms up and soil
plant food begins to become available.
Available plant food, especially avail-
able phosphoric acid and ammonia,
when applied in fertilizer have won-
derful effect in saving time—in getting
growth started early in the season.
Later on in the summer poorly fer-
tilized corn once again "hangs fire."
It waits, and waits, and is eternally
slow in ripening its seed. Too often
such a crop is caught, still immature,
by the first killing frosts of the season.
A high available phosphoric acid fer-
tilizer applied at time of planting is a
tremendous aid in ripening up the
corn quickly and surely.

THE WORLD SHORTAGE
OF LIVE STOCK

A census of cattle in France
reveals a decrease of 17 per
cent in beef animals, 38 per cent
in sheep and 40 per cent in hogs
since December 31, 1913. Italy
has suffered a loss of 21 per
cent of horses, 18 per cent for
mules, and 8 per cent for swine.
No one can even guess what the
decrease in Germany, Austria,
and Russia has been, but it must
be enormous. According to a re-
liable estimate the decrease of
live stock in all Europe is equal
to one-half the amount of live
stock in America today. This
estimate places the loss at 100,
000,000 head.

The J. L. ROARK ESTATE, Greenville, Ky.
Victrolas, Records, Cabinets, Pianos House Furnishings

TO THE PUBLIC

Greenville, Ky., Dec. 5, 1918.
During the past two months the Undertakers of this country have been subjected to greater demands for service and goods than ever before in the history of the nation. These calls have had our fullest response, and not only to our trade, but to our fellow-professionals in this and adjoining counties, we have supplied goods of all sorts in the line, and that with practically no replenishments of our stocks during this period. Our Stock Sheet of this department shows today we have 93 Coffins and Caskets, in all grades and sizes, and adequate supplies of all associated goods. **THE J. L. ROARK ESTATE,**
Orien L. Roark, Manager.

Local Mention.

Sewing machine crates, 50c at Roark's.

Tom, Dick, Harry and Jack will soon come marching back, and we will be glad to see every one of them.

Jes got to hurry, now, or you will be left on that Christmas shopping.

Plenty of fresh pork, now, for those who killed them.

Get asbestos table mats from Roark's.

So many do not begin to visit Roark's, just in time to get the best of the season's goods.

Peas, beans, turnips, cabbage and general vegetables these days.

Roark for pianos, Victrolas, records, cabinets.

All our soldier boys will know how and where they spent 1918, or as much more as they saw service.

See the line of beautiful cedar chests at Roark's. Nothing more durable or appropriate as a buy or a gift.

Turkeys will likely be cheaper for Christmas, for the Thanksgiving demand was light, and prices dropped to 24 cents, with dealers not wanting them at that.

The Victrola, sterling as the English pound, sells for the same just price, the world around.

Rabbits are selling at 25 cents each.

Mr. and Mrs. Lincoln Collins, of Tottenville, N. Y., are here on a visit to Mr. and Mrs. L. Figley.

See cedar chests at Roark's. Goods and prices will bring you what you need.

Many a girl who has been suffering has learned better how to do a number of things, as well as to do new things right.

Fresh meat is now being offered plentifully, and the price is, too.

Typewriter ribbons, all makes at The Record Office.

Merchants are very busy, these days, getting ready for the holidays.

Pumpkins are on the market, at fair prices, and the demand is good.

New sugar allowances will permit home made candy for Christmas.

Two models, No. 4 and 6 Victrolas, have advanced to \$25 and \$35, each, a raise of \$2.50.

Let E. N. Martin help you save by putting and keeping your clothes in good condition, and save you the expense of high priced outfits now.

Get in line for your Christmas Victrola, for selections are being made rapidly at Roark's.

This is "Victory" Christmas, and you will win if you put a Victrola in your home.

The local health authorities and trustees decided at a meeting last Saturday to postpone the opening of school for a week, and then decide upon conditions then existing. It is hoped school can be resumed next Monday.

All but 15,000 soldiers in Camp Taylor were invited out for Thanksgiving dinner, so the 5,000 turkeys provided for the camp made more than a feast for the boys there.

This should be a thoughtful Christmas, and Roark can help and serve you along those lines in your buying and gift making.

The Victrola helped to put the "Vic" in Victory.

Mr. William Wickliffe has been home from Camp Taylor for a few days, recuperating from the flu.

Hustle, the year is nearly gone.

Major Influenza is still on the job so you had best watch out.

Get typewriter ribbons at this office.

Good morning! Know the health of our soldiers thank flu danger is past.

Look and listen, but do not stop if you are intending to do Christmas shopping.

Dozens of new and old proven popular records received Tuesday by Roark.

Now as the warring nations are arranging to settle up, it is to be hoped that prices on many items will settle down.

Free labels for your Christmas packages will be supplied gladly by Roark.

The ban on account of the influenza epidemic has been lifted, but it will still pay you to be careful in your habits, if you value your health.

Shop now for Christmas—shop here for Christmas. Roark.

Try the new crop N. O. molasses just received by Roark.

We are realizing that lighting has ceased, for our soldiers, having been discharged, are beginning to return home.

Miss Lucile Kirkpatrick left last week for Camp Taylor, Va., where she goes as a volunteer nurse to which service she volunteered so long ago.

Weather has been variable, lately but we are waiting rain, here.

Large stock of mirrors at Roark's small prices.

The December Victor records are not new, but have been selected from productions of years past, and have approval of the public. Call at Roark's and hear what is offered.

The big munitions plants of the country are already turning to arranged plans for making articles of peace, and are working as hard as they did on destructive items.

The tones on a Victrola spring and mingle as on no other instrument. The light weight on the needle does away with the gritty, scratchy noise so manifest on all other machines, and insures the supreme delights of music, song and story. See and hear at Roark's.

Notice

The head of the Selective Service Department in the state of Kentucky is preparing a service flag as a memorial for the drafted men in the State who have made the supreme sacrifice.

Each of said men will be represented on the flag by a gold star.

In order that no soldier's name shall be omitted from this honor roll, the Local boards of the State have been called upon to furnish the names and other information in order to make the record complete.

The local boards look to the relatives, neighbors and friends of the men who have died while serving their country, for this information.

It is therefore requested that in each neighborhood there be formed at once a committee for the purpose of getting the name, age, date, circumstances and place, of its men who have died either while at camp or on the battle field, and furnish this information to the Local Exemption Board at Greenville, Ky on or before December 10, 1918.

Get your holiday shopping on the top of the list, or you will disappoint somebody.

The flu ban is lifted in Muhlenberg but the people have not been able to rise to any great height.

Business is developing and diversifying, and have doubtless gained more printers from the war than anybody.

Learn Gregg shorthand and touch typewriting by taking lessons three nights each week. Call phone 197 after 6 p. m., for information.

Examine the line of "Restgood" all-hair mattresses at Roark's. Finest line of goods ever carried in this section, and the cheapest, for one will give perfect satisfaction for an ordinary lifetime. Pillows of same material.

Nothing can express your wishes in a gift as will a Victrola, and no gift could be more appreciated. See Roark, have demonstration and make selection.

If you have some one you wish to surprise at Christmas, we shall be glad to help you make it as lasting and pleasing as possible. We have a gratifying list of customers for holidays, and wish to have you. Roark.

Merchants of Greenville are wide awake and seeing increased business. Trade with them in confident assurance of best goods at lowest prices.

There will be more home turkey dinners this Christmas than ever before, for every home will have a Victrola returned will have a turkey with all the trimmings.

This Town Bids C.

A customer who came to Roark's to buy a Victrola he wished, and he thought he would see what he could secure. This city is several times as large as Greenville, but the Victrola dealer did not have even one Victrola, though he had a very number of records, and another make for which he had the agency. Roark has a larger stock of Victrolas and records than any dealer hereabouts, and in a splendid position to serve the trade.

We will pay a straight salary of \$35 per week for man with rig to introduce Eureka Egg Producer. Six months contract. Write quick. Eureka Mfg. Co. East St. Louis, Ill.

Local Boy In Trenches

The family and friends of Mr. Roy Deans Martin have letters from him telling of his experiences in France. He engaged in three campaigns, as a member of a field artillery command, and one of his letters was written on a sheet of paper picked up in "No Man's Land." He came through without being injured but saw many things which he says he hopes to forget. Since Sept. 15 he has been at the front, and was there when the armistice was signed.

Telephone No. 2, Greenville and make reservation of that Victrola you want for Christmas and Roark has for you.

Coal business is back now.

Taupe street gone, lost Friday. Reward for return to this office.

New crop N. O. molasses at Roark's.

Coal mines are having to haul water.

The Christmas shopper is less shy.

Talking machine owners will find at Roark's the greatest stock of records in this section.

Miss Margaret Taylor, who volunteered several months ago, returned her call last week, and left today for Camp Taylor, where she will nurse in the base hospital.

Let music provide the feast for Christmas and every day of the year and nothing can supply this feast as a Victrola, for the talent of the world is yours to command. See Roark and have demonstration.

A man who has had some experience with the car, was he learned that Henry Ford was planning to run a newspaper, suggested the name "Ford's Bull-og" as appropriate.

The Government has announced the Fish Loan for April, and the amount as probably five billions, so begin now to get ready for it.

New heating machine has been installed in the Summers' shop, and work to this line will be promptly done.

There will be more home turkey dinners this Christmas than ever before, for every home will have a Victrola returned will have a turkey with all the trimmings.

This Town Bids C.

A customer who came to Roark's to buy a Victrola he wished, and he thought he would see what he could secure. This city is several times as large as Greenville, but the Victrola dealer did not have even one Victrola, though he had a very number of records, and another make for which he had the agency. Roark has a larger stock of Victrolas and records than any dealer hereabouts, and in a splendid position to serve the trade.

ANGELING FOR BLUE PATRONS

How a New York Millionaire Catches the Unwary Western Woman With Money.

In Woman's Home Companion, Corinne Lowe tells of the wiles used by a Fifth Avenue millionaire in making the "Fern Piper" but famous:

"Those for whom the spider spread its web were not the wealthy and fashionable women of New York, but wealthy and prompt customers from the middle West. These are the people who make money for every Fifth Avenue specialty shop. And the only difficulty which now lay in our path was that this profitable custom always has to be secured through a reputation for serving the most fashionable members of New York society. These notorious fashionables who are so responsive to a second bill and who never think of paying their first one until at least six months have elapsed.

"At first we did not have a single member of this society. What we did was to fake them. This was achieved by several ingenious methods. One of these was to pay \$10 a week each to the chauffeurs of Mrs. Philip Blaine Stewart and of Mrs. Clinton De Sade Rivers for driving their limousines up before our doors when these same ultra-fashionable employers were otherwise engaged. The empty limousines were extremely efficacious, and it was not long before the women who were trying to get into fashionable society were impressed. One by one they came to us.

"Meanwhile, we were also paying the clerks of two of the smartest of New York's hotels to recommend Fern Piper to their rich out-of-town patrons."

JOB HAD NO SUCH WOES

Boils Were Not Like Getting Your Nose Caught in a Cogwheel Under an Auto.

Speaking at a dinner, William H. Thompson of Kansas referred to the beauty of patience and contributed an anecdote along that line.

Some time since Smith and his wife went out for a spin in their new automobile, but before they had gone many miles something went amiss with the machinery. Crawling beneath the car, Smith began to twist and turn things, and finally there came sundry words that sounded like breaking one of the blue laws.

"John, John!" expostulated the good woman in the car. "Should not use such dreadful language!"

"Of course I shouldn't, Mrs. Smith," irritably responded Smith. "Of course I shouldn't! I suppose that if you were down under here you would sweetly sing!"

"You should have more patience," said the good woman. "I am sure you would be a great deal more patient if you were down under here, too."

Old English Furniture.

That fine old furniture yet found in Britain in many unexpected places is said to be largely due to the stirring up of the country that was given by the great exhibition at London of 1851. This was soon after the development of the railway system in England, and there flocked to London a large number of squires and their wives. A new world had opened to the country dames. The new things had a wonderful fascination for them. On returning home they got rid of much of their old furniture and bought new. Much of the old furniture found its way to second-hand shops, and was sold to poor folk, who could not afford to buy new. This accounts for the finding today of much good old furniture in small houses in provincial towns and among country people.—Indianapolis News.

Not to Be Taken In.

"Germany will sing small, very small, in the end, but we'll answer her like the judge."

The speaker was Provost Marshal General Crowder.

"Yes," he went on, "we'll no more be seduced by Germany's penitence than the judge was by the kidnapper who wiped his eyes on his cuff and hissed."

Weapons of War.

This is the most scientific war ever fought. There is less dependence on man power and more on machinery than at any time in the history of the world, says the Popular Science Monthly. We pin our faith to high explosives, poison gases, tear shells, gas masks, liquid fire, etc., all of which are applied chemistry, and to machine guns, heavy artillery, automobiles, submarines, airplanes, and so forth, which are very much refined mechanics. The greatest minds in the scientific and mechanical world have pooled their brains and obtained wonderful results.

Land of the "Great Unwashed."

Alabama has been called the land of the "great unwashed," and it is said that in some parts of the country water runs at 21 a bucket. In all such regions clothes are washed in the rivers, and women have been seen "washing blankets" when the water was so cold as to turn their feet and hands to red.—World Outlook.

Roark, Greenville Ky.

FOR BETTER ROADS

ROAD-BUILDING ROCK TESTED

Value of Material Gathered in Many States Given by Department of Agriculture.

(Prepared by the United States Department of Agriculture.)

Results of physical tests in 1916 and 1917 of road-building rocks are given in Bulletin 670, recently issued by the United States department of agriculture. This bulletin supersedes the department's Bulletin 537 and supplements Bulletin 570, which gave the results of the more common physical tests of approximately 3,650 road-building rocks examined prior to Janu-

Repairing Road—Cheapest and Best Way Is to Attend to Holes and Ruts While They Are Small.

ary 1, 1916. The rock tested came from most of the states. In a number of cases, in addition to other tests, the crushing strength of the rock also is given. The bulletin also contains a complete record of all the crushing strength tests made by the office prior to January 1, 1916.

The average crushing strength of granites and gneisses lies between 20,000 and 21,000 pounds per square inch, according to data in the bulletin, and the average crushing strength of limestone and dolomite is between 18,000 and 19,000 pounds per square inch.

Granite, gneisses, schists, sandstones and quartzites should not be used in the wearing course of a road, and sandstone roads, if used, should be made of the best material. Slate should never be used in this manner. Cement and concrete, of course, have been discontinued on these materials.

MOTORCAR IMPROVES ROADS

Farmer in Secluded Rural District Keeps Highway in Good Condition Without Effort.

A friend who spent the entire summer and some of the fall in a secluded rural district was telling us the other day about how the farmers kept their roads in good shape in the section in which he was sojourning, says a writer in Cleveland Plain Dealer.

There aren't any state roads in that part of the country," he says, "and no brick or macadam. But the farmers keep the gravel and dirt roads in excellent shape. Whenever my landlord took a trip to town, or anywhere, he used to hitch a road drag to his motorcar. Then the car would pull the drag along the mile or two that he was interested in keeping up. He would unhitch the drag and leave it by the wayside. On the way home he would pick up the drag where he left it and drag the other side of the road going back. And he'd make a round like that almost every time he took the car out."

CULVERT GUARDS ARE URGED

Particularly Serviceable at Night in Preventing Accidents—Railings Painted White.

Because unguarded culverts on country highways are frequently the cause of serious automobile accidents, particularly at night, special pains is now being taken in many parts of the country to place railings at the ends of such structures, together with suitable guards either side of the approaches. An excellent example of such an improvement is found in the substantial concrete guards on a highway in Michigan. The short lengths of fence are of wood and are painted white to match the concrete and to add to their conspicuousness, particularly at night.

Value of Good Roads.

The value of good roads is now recognized everywhere, but few know how easily and how cheaply they may be had.

Good Country Roads.

People in better need country roads as well as paved streets, for their living comes originally from the land.

Thanks to Motorcar.

Thanks to the pushful, pervasive motorcar, American road building has "got a move on" at last.

Roark, Greenville Ky.

ART VS. BRICKS IN SYDNEY

A Peculiar Controversy in Australia That Is Agitating Labor Circles.

There is a curious point of law or logic presented in the Sydney (N. S. W.) Bulletin. The musicians' union of Sydney charges the Melbourne cricket board's procession with something like scabbing because it decided that unionists, even if they don't belong to the musicians' organization, may play in its own ranks on the annual gala day.

There are arguments on both sides. It seems hard that a union bricklayer shouldn't be allowed to blow his own cornet in his own demonstration on a holiday, yet if he found a professional cornet-player laying bricks on a Good Friday he might object. Of course the man in the procession isn't playing for hire, but then it wouldn't improve things much if the cornet-player laid bricks gratis.

The bricklayer might argue that there are a certain number of bricks that must be laid, so the cornet-player would be doing another man out of a job, while there isn't any fixed amount of music that must be blown, so an amateur might blow a sample or two without depriving any other man of a crust. And the bricklayer probably says that the cornet-player couldn't lay bricks decently if he tried, to which the cornet-player possibly replies that the bricklayer can't make music.

To some extent it is a struggle between art and materialism. Music properly played is capable of arousing the highest and noblest emotions of which the soul is capable; a brick, even if properly laid, isn't. And so isn't a thing to be lightly despised. But here the tangible bumps against the intangible. Nobody has seen a soul, while almost everybody has seen a brick.

TO RECLAIM DISABLED MEN

War Is Teaching a Great Lesson as to Possibilities in This Important Field.

The reclamation of the energies of all the disabled of the nation may be taught by the exigencies of war, according to Maj. Harry E. Mock, M. R. C., who in addressing the National League of American Pen Women, said:

"There are in the United States 600,000 persons who have been disabled in industries—probably more than the total number of soldiers who will be disabled through this war—yet neither government nor industry has hitherto made thorough effort to reclaim their energy. That is a great lesson this war has taught us, and when we have won it we shall find that, through deaths, a cessation of immigration, and other causes, we shall face a great shortage in the labor market. We shall then turn our attention to the reclamation of all the disabled and thus our country will profit by the labor of all her sons and daughters."

Pigeons Broke Up a Monopoly.

One of the few things of an ant nature is the romantic way in which nature thwarted the Dutch attempt to establish a complete monopoly of the spice. They own the Banda Islands, where most of the nutmeg trees grow, and at one time they wanted to prevent everyone else from raising the spice. So to keep up prices and to induce other planters on other islands to cut down their plantations the Dutch at one time burned three piles of nutmegs, each of them said to have been as big as an average church. They induced other planters to join with them and it soon seemed as though they were killing all competition.

Then nature took a hand in the game. A large pigeon of the islands, which was extremely fond of nutmeg, carried the seeds to all the surrounding land, even to the mainland of Asia. Nutmeg trees have since grown wild in numerous places and all danger of a monopoly was removed.—Boston Post.

Two Mistranslations.

To the Spectator thanks are due for two enterprising mistranslations, one belonging to the genus schoolboy howler, and the other resulting from an attempt at French on the part of a mess sergeant.

The menu one day announced "Imbecile rot" as the piece de resistance, the riddle being solved by the appearance of roast goose. It is just possible that the sergeant nourished some resentment against that particular goose, but it was generally thought that the imbecile rot had resulted from a half hour or so spent with a French-English dictionary.

The schoolboy added to the hilarity of notions by rendering the Horatian line: "Post equitem sedet atra Cura" as: "After horse exercise the black lady sits down with care."—Christian Science Monitor.

Abhorred Red Tape.

"A swollen organization always means inefficient administration," says the air minister, as he surveys the staff which he has taken over. How did Napoleon manage his clerical staff one wonders. According to Wellington there were 12,000 clerks in the French war office. Normally we had 50 clerks with the war secretary, 40 in the ordnance, and about 50 at the horse guards. "These 150 do the work of the French, yet the French clerks begin to write at six in the morning, and ours go down at ten or eleven." Of course the size of the armies differed also.—London Chronicle.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia

Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak.... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member of every family, at times, needs the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 62

ART VS. BRICKS IN SYDNEY

A Peculiar Controversy in Australia That Is Agitating Labor Circles.

There is a curious point of law or logic presented in the Sydney (N. S. W.) Bulletin. The musicians' union of Sydney charges the Melbourne eight hours' procession with something like scabbing because it decided that unionists, even if they don't belong to the musicians' organization, may play in its own ranks on the annual gala day.

There are arguments on both sides. It seems hard that a union bricklayer shouldn't be allowed to blow his own cornet in his own demonstration on a holiday, yet if he found a professional cornet-player laying bricks on a Good Friday he might object. Of course the man in the procession isn't playing for hire, but then it wouldn't improve things much if the cornet-player laid bricks gratis.

The bricklayer might argue that there are a certain number of bricks that must be laid, so the cornet-player would be doing another man out of a job, while there isn't any fixed amount of music that must be blown, so an amateur might blow a sample or two without depriving any other man of a crust. And the bricklayer probably says that the cornet-player couldn't lay bricks decently if he tried, to which the cornet-player possibly replies that the bricklayer can't make music.

To some extent it is a struggle between art and materialism. Music properly played is capable of arousing the highest and noblest emotions of which the soul is capable, a brick even if properly laid, isn't. And soul isn't a thing to be lightly despised. But here the tangible bumps against the intangible. Nobody has seen a soul, while almost everybody has seen a brick.

TO RECLAIM DISABLED MEN

War Is Teaching a Great Lesson as to Possibilities in This Important Field.

The reclamation of the energies of all the disabled of the nation may be taught by the exigencies of war, according to Maj. Harry E. Mock, M. R. C., who in addressing the National League of American Pen Women, said:

"There are in the United States 600,000 persons who have been disabled in industries—probably more than the total number of soldiers who will be disabled through this war—yet neither government nor industry has hitherto made the necessary effort to reclaim their energy. That is a great lesson this war has taught us, and when we have won it we shall find that, through deaths, a cessation of immigration, and other causes, we shall face a great shortage in the labor market. We shall then turn our attention to the reclamation of all the disabled and thus our country will profit by the labor of all her sons and daughters."

Pigeons Broke Up a Monopoly.

One of the queer things about the nutmeg is the romantic way in which nature thwarted the Dutch attempt to establish a complete monopoly of the spice. They own the Banda islands, where most of the nutmeg trees grow, and at one time they wanted to prevent everyone else from raising the spice. So to keep up prices and to induce other planters on other islands to cut down their plantations the Dutch at one time burned three piles of nutmegs, each of them said to have been as big as an average church. They induced other planters to join with them and it soon seemed as though they were killing all competition.

Then nature took a hand in the game. A large pigeon of the island, which was extremely fond of nutmeg, carried the seeds to all the surrounding lands, even to the mainland of Asia. Nutmeg trees began to grow wild in numerous places and all danger of a monopoly was removed.—Boston Post.

Two Mistranslations.

To the Spectator thanks are due for two enterprising mistranslations, one belonging to the genus schoolboy howler, and the other resulting from an attempt at French on the part of a mess sergeant.

The recent one day announced "imbecile rot" as the place de resistance, the riddle being solved by the appearance of roast goose. It is just possible that the sergeant nourished some resentment against that particular goose, but it was generally thought that the imbecile rot had resulted from a half hour or so spent with a French-English dictionary.

The schoolboy added to the hilarity of nations by rendering the Horatian line: "Post equitem sedet atra Cura" as: "After horse exercise the black lady sits down with care."—Christian Science Monitor.

Abhorred Red Tape.

"A swollen organization always means inefficient administration," says the air minister, as he surveys the staff which he has taken over. How did Napoleon manage his clerical staff one wonders. According to Wellington there were 12,000 clerks in the French war office. Normally we had 60 clerks with the war secretary, 40 in the ordnance, and about 50 at the horse guards. "These 150 do the work of the French, yet the French clerks begin to write at six in the morning, and ours go down at ten or eleven." Of course the size of the armies differed also.—London Chronicle.

THE ADLER PIANO AND THE ADLER ORGAN For Churches and the Home

After you have made a thorough investigation of the different methods of selling Pianos and Organs, just figure what you can save if you buy from the factory. Remember, a retailer has his expense of selling, besides his profit. You can save all of this at our factory.

We make as fine instruments as are manufactured and sell direct to the homes on small payments and liberal terms if desired. We have a special Showroom conveniently located at our factory, Twenty-ninth and Chestnut Streets, where the ADLER Pianos and Organs can be seen finished and in process of construction.

Come and see us or send for the catalogue you desire Direct From Our Factory—Pianos, Organs and Player-Pianos—Wholesale Prices—Easy Payments

TEAR OFF AND MAIL THIS RECORD COUPON.
